Cover-ups

- by alleging misclassification of patients (Draper) 297
- by altering conference resolution 378
- by altering meteorological records 264 to 271
- by altering statistical methods 296
- by assumptions about cancer time lag 365
- by Bayesian Smoothing 325 to 326
- by biased citation 460
- by biased data selection 319
- by biased rapportage 345, 346, 369, 378, 419, 425
- by biased selection of scientific opinion (broadcasting) 325
- by bogus definition of lymphatic system 285
- by bogus epidemiology 105, 226, 305 to 316, 458
- by bogus statistics 323, 324
- by bowdlerising DPA requested material 332, 333
- by buck passing 364
- by changing epidemiological methods 237
- by Civil Service collusion 352
- by classifying anthropogenic uranium as natural 283
- by data alteration 35
- by data management 34
- by deductive reasoning 359, 461
- by deleting patient records 295, 297
- by deleting skin cancer diagnoses 35
- by denial of natural justice (COMARE) 295
- by denying existence of fallout 257
- by denying the utility of risk models 363-364
- by discontinuation of trend reporting 35
- by displaying data on logarithmic graphs 311
- by downgrading deliberative committee 412
- by epidemiological obfuscation 115

## (Cover-ups)

- by epistemological insolubility 375
- by excluding data 308, 309
- by excluding known environmental factors 323
- by excluding sick people from study 321
- by filibustering 376, 377
- by "friendly" editing 421
- by IAEA veto on WHO radiation research 272, 374
- by ignoring research published in Russian 372
- by ignoring study hypotheses (UKCCS) 328, 239
- by imprisonment 372
- by inertia of peer review 389
- by international aid deals 342
- by intimidating scientific journal 362
- by inventing population data 143
- by legal threats 345, 420, 421, 422
- by limiting scope of studies 303
- by losing data 292, 321
- by lying 329, 335
- by making results fit the hypothesis 389
- by marshalling facts 370
- by medical complicity 261, 266
- by minimising statistical significance 123 to 125
- by negligence 362
- by Nelson's telescope 452
- by not publishing conference proceedings 275
- by ostracism of Hibakushas 260 to 263
- by passing the buck 331
- by radial epidemiology 241
- by "randomness" of clusters 322
- by refusing to obtain data 327, 421
- by reinterpreting previously published results 320, 321
- by removing children from data Plate 12
- by reviewers' bias 343
- by revising cancer records 272, 273
- by rubber-stamping nonsense (COMARE) 302
- by literacy gap between ministers and civil servants 380 to 395
- by secretarial control 413
- by selective co-option of committee members 133, 134
- by sharing addresses 281
- by shifting European Directorates 441

(Cover-ups)

- by Soviet control over diagnosis 370
- by stealing data 311
- by stealing records 208
- by stupid methodology 236
- by stupid opinion of referee 255, 363
- by suppression of IAEA conference proceedings 374
- by threatening to boycott conferences 426
- by unconscious bias 316
- by using inappropriate monitoring methods 460
- by using inappropriate risk model 247, 460
- by using potentially contaminated controls 321
- by using wrong populations 302
- by vituperation 341
- by withholding data 116, 207, 227, 352, 452
- by withholding information from Ministers 265
- by withholding meeting transcripts 413
- exposed by TV 378
- exposed on DVD 374
- in Wales 287
- motives for 39, 251, 448
- frustrated by identifying patients 234
- motive for (COMARE) 295
